

ALCHEMY BIOMAX

Enriched Soil Conditioner

Scientifically Decomposed Enriched Organic Manure

Weed Free

**Constant release
of nutrients**

Foul free

**Free flow for
Easy application**

Alchemy Processors

ALCHEMY BIOMAX is scientifically decomposed highly enriched organic manure, specially manufactured for landscaping.

In the scenario of urban development while constructing infrastructures, natural Eco system of soil gets disturbed i.e. its biological, physical, chemical characters gets disturbed, which affects on plant growth.

So in landscaping this eco system of land has to be established. **ALCHEMY BIOMAX** is the solution for this.

How **ALCHEMY BIOMAX** is manufactured?

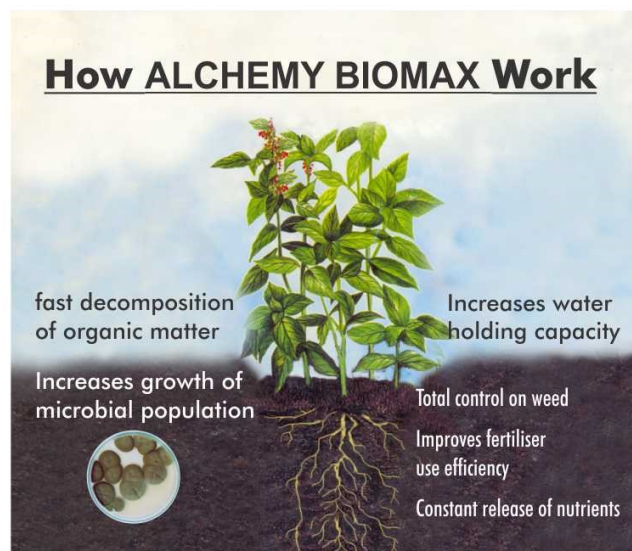

Alchemy Processors is company engaged in aerobic fermentation from last one decade, people behind this has immense expertise in this field. To cater exact need in landscaping, Alchemy Processors has designed manufacturing process. As in landscaping, other manures gives problems like, huge weed, foul smell, and application problem. **ALCHEMY BIOMAX** is the solution for this.

Organic matter required for manufacturing of **ALCHEMY BIOMAX** is taken from process plants which gives total weed free material which is big problem in animal origin manure or farm yard manure. With scientifically designed compost yard, spraying machinery and carefully selected micro organisms, complete digestion of material is done, which gives free flow, foul free material.

How **ALCHEMY BIOMAX** Work

How **ALCHEMY BIOMAX** works?

As **ALCHEMY BIOMAX** is rich in organic carbon and humus, it helps to increase nitrogen fixing and phosphorus solubilizing bacteria. Humic substances increase water holding capacity of soil. This gives slow release of nutrients. Ultimately which results in re-establishment of chemical, biological and physical characters of soil

Quality Features of **ALCHEMY BIOMAX**

- It is highly rich in carbon and humus
- Completely mineralized, with Narrow C: N Ratio, as complete digestion of material is done.
- Contains beneficial micro organisms for better soil health
- Blended with micronutrients.
- Environmental friendly, non-toxic, compatible with soil micro flora and all other fertilizers.
- Suitable for all types of soil, all types of plants.
- Completely Weed Free as organic matter used in manufacturing, comes from process plants
- Gives Slow but constant release of nutrients, doesn't exhausts quickly.
- Foul free as it is decomposed in scientifically designed compost yard, spraying systems with help of carefully selected micro organism.
- Screening process and continuous quality check assures the material uniformity in all the batches.

What **ALCHEMY BIOMAX** gives you?

- As it is totally weed free, so, the cost required for maintenance is very less.
- As it is completely digested, foul free material can be applied without disturbing surrounding activity.
- As it increases water holding capacity, watering cycles can be reduced.
- As it slowly releases nutrients effect is long lasting
- Helps in uniform growth of plants
- Packing is easy to handle

ALCHEMY BIOMAX

Enriched Soil Conditioner

Scientifically Decomposed Enriched Organic Manure

Dose

For lawns

Prepare soil by raking, remove weed in soil, spread Flourish (15kg per m²) transplant and water.....uniform growth will be there

Potting Mix

One part of **ALCHEMY BIOMAX** + 2 part of soil

Floriculture

One part of **ALCHEMY BIOMAX** + 2 part of soil

Packing:

Available in HDPE woven sacks of 50 Kg.
